

embedded conference scandinavia

Call for Papers

In 2024 the long and eminent tradition of Embedded Conference Scandinavia (ECS) will step up to a new level. The conference will be held in parallel with the fair Elektronikmässan, the great electronics fair in Stockholm Kista 10-11 April. Hosted by the Swedish Electronics Trade Association and organized in cooperation with EasyFairs.

ECS will offer selected speakers who will cover important trends and key areas of embedded applications and technologies. The conference program will highlight the newest trends and this year we will want to especially highlight the following areas:

- **The role of Electronics in the sustainability effort**

- Power electronics
- Battery technology
- Sensor technology

- **AI impact of embedded systems**

- **IoT and cybersecurity**
- **Wireless/radio technology**
- **Components, value chains and resiliency**
- **Embedded software development and use**

- Tools
- Methodology
- Software testing

- **DfX aspects**

- Design for compliance (EMC, etc.)
- Design for production

The ECS 2024 program will cover today's hot issues in the world of embedded systems, related to the focus areas and other relevant issues of embedded. From components and operating systems to standard modules and system solutions.

We encourage the talks to be related to the latest technology, research programs together with users' experience and future requirements. Also, we welcome talks on emerging embedded technologies, systems and applications.

Conference topics of interest

- Embedded hardware design aspects
- System development and testing
- Embedded software implementation
- Quality and security
- Project case studies

Intended audience

- Design, software and test engineers
- Hardware and software designers
- Project leaders
- System analysts
- Engineering managers
- Marketing and product managers

Proposal format

The proposal should be maximum one page and consist of:

- A headline
- A brief abstract and major topics
- A short biography of the presenter
- Suggested length of presentation
- Contact information (Email address and phone number to the presenter and other contact person if available)

The conference language

- English

Embedded Conference Scandinavia 2024

April 10-11 2024 • Kistamässan, Stockholm, Sweden

Topics of interest at ECS 2024

All proposals with a high technical level are welcome. Pure product presentations will not be accepted. We especially appreciate contributions close to our highlighted areas.

Presentation format

- Presentations: 30-45 min.
- Time for questions 10-15 min

Application

Please send your proposal to info@embeddedconference.se.
Last day for submissions is **October 31 2023**.
